IMPACT IS CELEBRATING COVID HEROES

DOCUMENTING COMMUNITY WORK IN COVID CRISIS

It is extremely heartening to see the Muslim community so actively participating in helping the people in this crisis situation all over the country. From feeding people to providing medicines, plasma donations and oxygen cylinders, helping in cremations and burials, donating funds and converting masjids as corona care units, the community has been in service towards the cause of humanity in true spirit of Islam.

Community volunteers and doctors are playing no less significant roles. This is also being well documented by local media with widespread appreciation. IMPACT feels the need to centrally document all the yeoman work the community is doing in this grave hour of crisis. Last year, IMPACT brought out two detailed booklets on community covid work and shared with the media and public at large, which was well received and widely appreciated. This year too, we would like to publish similar booklets showcasing the community's contribution in this period of grave crisis. We would like to request all the members to kindly share any important covid related work or any other humanitarian work that the community is doing. Please circulate it further. The details may kindly be sent by mail or whatsapp to:

IMPAR writes to PM, urges to mediate between Israel and Palestine conflict

FREEDOM PRESS BUREAU

New Delhi, May 16: Indian Muslims for Progress and Reforms (IMPAR) writes to Prime Minister Narendra Modi and the Minister of External Affairs Subrahmanyam Jaishankar to influence both Israel and Palestine to immediately end the conflict, which poses a serious risk to engulf a full-scale war in the region.

The eruption of violence in East Jerusalem and in other parts of Palestine and Gaza have caused deep pain and anguish to the people the world over. The forceful entry of Israeli security forces in the Al Aqsa mosque and attempt to evict Palestinian families from their

Air attacks on Gaza by Israel Defense Forces resulted in tragic loss of innocent human lives.

homes is distressing and raised grave concern in India and around the world, IMPAR said in a letter addressed to PM.

The safety, security, and dignity of the Palestine people are routinely trampled by Israel for decades. Palestinian and Arab Israeli people have a right to live with dignity and security as much

as the Jewish people of Israel, said IMPAR.

During these times, India can play a vital role by leveraging its influence and relations and reach out to both the State of Israel as well as Palestine and urge them to cease the hostilities and attacks from both sides immediately, IMPAR appealed to the Government.
