DEFEATING THE POLITICS OF POLARISATION

IMPAR welcomed and supported Uttar Pradesh Population (control, stabilization, and welfare) Bill 2021 and stated the reasons for supporting the Bill.

Impar lauds the role of the Muslim community organizations who have displayed tremendous patience and acted wisely in recent years in the face of provocative acts and statements of right-wing fringe elements and some of the State Governments alike. The glaring example being the recent attempt of the UP Government in introducing the Population Control Bill so close to the elections, expecting fierce opposition by the Muslim community and in the process hoped to polarise elections and benefit? To its greatest dismay and frustration, the opposite happened. Almost entire Muslim leadership either welcomed it or opposed it on facts and logic. This is quite a departure from the community's earlier approach, where, incited by the shortsighted clergy or self-styled political leaders, it necessarily reacted to almost every issue with emotional outbursts, provoking statements, or street agitation. And in the process, it strengthened the very same parties and ideologies it wished to defeat. In the context of the Population Bill, by opposing, we could certainly not have stopped it, but only helped certain parties harvest the political crop of polarisation at election times. Good that almost all Muslim groups chose to support it. The political purpose, if any, of bringing this legislation at election times gets defeated. Let me share an example of how the media works as a spoon in the game. Yesterday one right-wing supporter channel asked for an IMPAR panelist. We suggested one name. The anchor asked if he kept a beard, we told him no. He asked if he would oppose or support the Population Bill? We replied, support. He regretted it. But before that asked for the suggestion of the name of a Maulana who could oppose it? Therefore in our wisdom what all Muslim organizations have done this time is commendable. By supporting this Bill publicly, many risked being termed Yogi supporters. But still, they acted wisely. I Hope, the community will respond to all such related issues in the future too with due wisdom and caution and thus help defeat the Politics of Polarisation.

LEGAL ACTION TAKEN AGAINST THE HATE SPEECHES TARGETING MUSLIMS

IMPAR files FIR with Crime Branch, Delhi Police, National Commission on Minorities, and Delhi Commission on Minorities for Unlawful Gathering and Provocative Speeches against Muslims on August 9, 2021, New Delhi

On August 8, 2021, some anti-social elements gathered at Delhi's Jantar Mantar, reportedly without due permission, and made abusive religious comments against Muslims, and vociferously sloganeered, and made a video of the incident and circulated the same on social media, IMPAR mentioned these in its complaint with Delhi Police. IMPAR also wrote to the National Commission for Minorities as well as Delhi Minorities Commission on August 9, 2021, demanding strict action under various sections of the IPC against these anti-social and anti-national forces and for their immediate arrest. Such elements want to disturb communal harmony and want to spread anarchy in the country.

In the states adjoining Delhi, elections are soon due, hence, some forces in an attempt to take political advantage are spreading such a kind of communal discord. Indian Muslims need not fear such empty words. IMPAR would fight against the forces that want to break the social fabric of the nation. Don't be distracted and don't get provoked. All such attempts would be dealt with appropriate legal actions.

Congratulatory Message to the community members and various organizations for initiating timely action in filing complaints with Delhi Police

Let me congratulate the community members and various organizations for keeping patience and initiating timely action in filing complaints with Delhi Police and representing various authorities for action against the hate mongers and provocateurs. IMPAR, like many other organizations, also acted on this with complaints to Delhi Police, NCM, and DCM. This is indeed a welcome change in the community's approach. Instead of statements and street agitations, there is action now. Six culprits are arrested in late-night raids by Delhi Police.

Religious Discrimination under Article 341 (3) -The Way Forward to Resolution

On Aug 10, 2021, IMPAR organized a program to discuss the issue of "Religious Discrimination under Article 341 (3)- The Way Forward to Resolution." The session was moderated by Dr. Anis Ansari (Retd. IAS 1973 Batch), former Addl. Chief Secretary, UP Government.

The Presidential Order was issued on this date in 1950, changing Article 341 Clause 3, which made reservations for Scheduled Castes exclusive to Hindus. Muslims and other religious minorities were thrown out of the ambit of SC reservation, which was till then available to all communities based on caste and profession, irrespective of religion. However, Sikhs and Buddhists were later included in the years 1956 and 1990. This ensured that the same Muslim castes were excluded from 22.5% of jobs, education, economic and social schemes, and even political posts and constituencies, reserved for SC/ST, based purely on the religious criterion. The economic loss to the community on this count is estimated to be greater than possibly all other negative developments put together in the past 70 years. It was concluded in the meeting that IMPAR would carry forward the agenda of Religious Discrimination that has placed a large chunk of the Muslim community at bay and resulted in the formation of their backwardness.

Remembering Hakim Abdul Hameed Sb

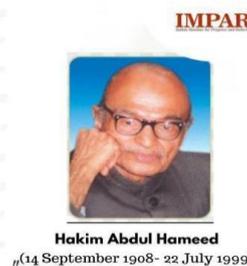

Remembering the Founder of Jamia Hamdard

IMPAR earnestly remembers the valuable contributions of Hakim Abdul Hameed in the field of Unani Medicine and philanthropy. He holds the esteemed position of a pioneer who remarkably transformed the Unani Medicine from a Small Clinic/Dawakhana in one of the lanes of Historic Old Delhi, into a multi-dimensional and internationally acclaimed organization called HAMDARD.

Hakim Abdul Hameed was the Founder Chancellor of Jamia Hamdard and the former Chancellor of Aligarh Muslim University. He was honoured with Padam Shri in 1965 and Padma Bhushan in 1992 by the Government of India. He also received the Avicenna Award from the USSR in 1983, was a member of the prestigious Iranian National Academy of Science, obtained D. Litt. from Hamdard University Karachi, and the IRCICA Award that was given posthumously by the President of Turkey in 2000.

He also established Hamdard Public School, New Delhi in 1993. IMPAR sincerely pays its profound tribute to Hakim Abdul Hameed (one of the greatest architect of Unani Medicine in India) on his 22nd death anniversary.

Remembering Chandra Shekhar Azad

CHANDRA SHEKHAR AZAD

(23 July 1906-27 Feb 1931)

IMPAR remembers the Hero of the Indian Freedom Struggle Chandra Shekhar Azad on his birth anniversary. He is a celebrated and renowned Freedom Fighter of India. Azad formed the Hindustan Socialist Republican Association (HSRA) after the death of Ram Prasad Bismil and three other key freedom fighters. Azad's love for the Motherland is inspirational to everyone, as he devoted his whole life to ensure the freedom of India.

He came into prominence as a preeminent revolutionary of India for the assassination of John P. Sanders (an act of revenge to condone the tragic death of Lala Lajpat Rai, one of the prominent freedom fighters). To apprehend Azad, the British Government announced a reward of INR 30,000 for his whereabouts.

He bravely fought for the Independence of India till his last breath at Alfred Park, Allahabad on February 27, 1931, where he shot himself with the last remaining bullet he had while fighting against the British police.

IMPAR celebrated National Handloom Day 2021

On August 7, 2021, IMPAR celebrated National Handloom Day with a message quoted as; "To quote Mahatma Gandhi, " I do regard spinning and weaving as a necessary part of any national system of education." IMPAR draws a lesson from Gandhiji's words to pay tribute and recognition of the skill of the weavers across the country on National Handloom Day. These craftsmen have tirelessly showcased the rich legacy of handloom that has always been an integral part of the identity of India and Indians.

On National Handloom Day, we at IMPAR would like to draw the attention of all towards the plight of weavers who are languishing in neglect and facing socio-economic hardships even though the handloom industry had been given encouragement and support by the government agencies in the past. It is also an employment generating industry, hence, deserves the goodwill and patronage of both private and public sectors. To support and uplift this indigenous craftsmanship, IMPAR invites ideas and suggestions over 'How to preserve and promote the country's handloom sector that is a means of livelihood in rural and suburban areas'.
