IMPAR writes to PM, urges to mediate between Israel and Palestine conflict

FREEDOM PRESS BUREAU
New Delhi, May 16: Indian Muslims for Progress and Reforms (IMPAR) writes to Prime Minister Narendra Modi and the Minister of External Affairs Subrahmanyan Jaishankar to influence both Israel and Palestine to immediately end the conflict, which poses a serious risk to engulf a full-scale war in the region.

The eruption of violence in East Jerusalem and in other parts of Palestine and Gaza have caused deep pain and anguish to the people the world over. The forceful entry of Israeli security forces in the Al Aqsa mosque and attempt to evict Palestinian families from their homes is distressing and raised grave concern in India and around the world. IMPAR said in a letter addressed to PM.

The safety, security, and dignity of the Palestine people are routinely trampled by Israel for decades. Palestinian and Arab Israeli people have a right to live with dignity and security as much as the Jewish people of Israel, said IMPAR.

During these times, India can play a vital role by leveraging its influence and relations and reach out to both the State of Israel as well as Palestine and urge them to cease the hostilities and attacks from both sides immediately. IMPAR appealed to the Government.

Air attacks on Gaza by Israel Defense Forces resulted in tragic loss of innocent human lives.
